

Specification

Electrical properties

Frequency	1575.42 MHz
Impedance	50 OHm
V.S.W.R	<2.0 Max
Gain	38 dB
Power supply	3-5VDC (10 mA)
Noise fig.	<1.5 dB Typ.
Polarisation	RHC (Right Hand Circular)

Mechanical properties

Antenna type	Active GPS
Cable cover	black
Antenna cable	30m H155
Connector type	SMA m

Photos

NTS-pico
Miniature Time Server

Notes:

This antenna is included to std. NTS-pico and it is not compatible to NTS-x000 family servers
It is dealivered with 30m coax cable. Antenna has built-in GNSS signal gain amplifier 38dB.
