July 2016

To whom it might concern ...

We hereby inform that power station (a member of Tauron power distribution network) has chosen ELPROMA Clepsydra Time System as primary time reference standard for synchronizing IT infrastructure.

We hereby issue this certification according to fact that Elproma has successfully delivered time servers /mode/I NTS-5000 with Rubidium+OCXO/ beginning from 2005. Given the existing good cooperation between our companies, we recommend ELPROMA and their time server products.
